

# Career in Strategy and Transactions Business Analytics

EY Strategy and Transactions (SaT) enables organizations to navigate complexity by reimagining their ecosystems, reshaping their portfolios and reinventing themselves for a better future. With global connectivity and scale, we drive corporate strategy, capital allocation and transactions from planning through execution to enable fast-track value creation. Business analytics professionals help form the backbone of these solutions by driving data-driven decisions.

As one of the largest global consultancies, EY teams across all disciplines draw on our shared creativity, experience and different perspectives to bring out the best in each other's ideas. We provide the culture, the tech, the teams, the scale, the challenges, the learning and the relationships for you to personalize your career as part of a truly transformative organization that is committed to building a better working world.

## US SaT Business Analytics

Business analytics professionals help organizations across industries make better, faster strategy and execution decisions by uncovering insights from data, using quantitative and statistical methods. Business Analytics colleagues draw on a variety of skills, including business acumen, data science and data engineering to empower our clients in taking informed operational, commercial and corporate finance actions with confidence.

Operational analytics	Commercial analytics	Corporate finance analytics
Supply chain optimization	Growth strategy	Financial modeling
Strategic sourcing	Customer engagement	Capital allocation
Logistics planning	Product optimization	Forecasting Scenario
Inventory management	Pricing and promotion planning	planning Synergy
Working capital improvement	Marketing and sales investment	tracking Interim
Industry 4.0 analytics	Innovation prioritization	reporting

## A career in Strategy and Transactions. It's yours to build.

- Leading-class learning and career opportunities through exposure to a diverse range of clients, projects, industries and geographies
- Exceptional experiences that provide you with different career pathways so that you have a long and fulfilling consulting career
- Commitment to diversity and inclusiveness, treating people fairly and recognizing and rewarding them equitably, meaning you'll have equal access to opportunities and progression
- New ways of working, leveraging technology to provide flexibility while also allowing opportunities for mentorship and collaboration
- Global people culture that embraces multicultural thinking needed to deliver cross-border impact
- Powerful firmwide purpose: Build a better working world – impact our clients, our people and our communities

### What we look for:

- Undergraduate and master's degree level candidates who are interested in developing their business analytics consulting skills
- Highly curious, purpose-driven leaders who are ready to ask questions and get to know people, industries and businesses
- Team-oriented people with unwavering integrity, work ethic and flexibility to quickly adapt to new environments/clients

## EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients.
